JERKY BITES

MINI BITES

Air-dried is one of the highest trending food categories in the pet industry. The jerky-like bites have a chewy texture and are highly palatable. We take premium proteins and combine them with essential vitamins and minerals to create our complete and balanced high-nutrient diets, food toppers and treats.

Custom formulations are available for both dogs and cats.

Create your formula

In-house R&D team and industry-leading equipment allow us to customize food and treat formulas, shapes and sizes based on customer's preferences.
